

12/06/2021

To whom it may concern:

We will be starting a Sanitary Sewer Extension along SW Galbreath Dr the week of December 13th through December 23rd.

The construction zone is from right before address #19935 SW Galbreath Dr. and run east to SW Cipole Dr. We expect the project to last two weeks assuming no unforeseeable issues come up. If that happens and the project extends beyond two weeks, we will send out another info letter.

We will have SW Galbreath Dr closed but will allow local traffic through to businesses and houses. If you have deliveries coming, please let drivers know to be patient and get the attention of someone onsite to safely guide you through the construction zone.

Hours of operation will be from 7:30am – 6pm. The road will be opened up each night for traffic use.

If you have any questions or concerns, please reach out to the following in charge of this project:

Keith Crawford – Site Supervisor – (971) 901-1784

Dawn Newman – Project Manager – (503) 341-4938

Thank You,

Lawson Corp
